

The **BMP21 Portable Label Printer** is an all-in-one labeler for voice/data comm, electrical and general industrial crews. With label materials designed specifically for harsh environments, the **BMP21 portable printer** can quickly and easily create clear, legible labels that stick for years - despite extreme temperatures and curved or highly textured surfaces. This label printer can print on self-laminating vinyl, PermaSleeve™ wire marker sleeves, nylon cloth, polyester and indoor/outdoor vinyl label materials. It offers a one-handed operation and a large, backlit display for easy indoor and outdoor reading. Its dual cutter buttons hold the label until you need it, and a multi-function accessory is available with a magnet, flashlight and wrist strap.

Prints on These Types of Label Constructions

- Self-Laminating Vinyl
